The chart above shows the total amount of on-demand streams of the Top 100 K-Pop Artists, comparing the figures for 2022 and 2023 across six selected countries. In both 2022 and 2023, Japan recorded the largest amount of streams, followed by the United States. The United States and Indonesia recorded identical increases in the total amount of streams from 2022 to 2023, each achieving an additional 2.6 billion streams. Indonesia ranked fourth in the total amount of streams among the selected countries in 2022 but moved up to third place in 2023, surpassing South Korea. The total amount of streams in South Korea reached 7.3 billion in 2023, which was more than twice that of the Philippines in the same year. Among the selected countries, Mexico was the only country that did not reach 3 billion in the total amount of streams in 2022, but it exceeded 3 billion in 2023.
