A study by Eurofound (1) _____ that young people who (2) _____ (3) _____ remotely (4) _____ more difficulties in (5) _____ their workload than older colleagues.

Moreover, many young people (6) _____ their careers (7) _____ remotely during the pandemic, unlike those in older generations who (8) _____ many years to (9) _____ interpersonal connections and (10) _____ themselves in the organizational culture in an in - person job.

A survey by Prospects (11) _____ that almost half of students and graduates in the United Kingdom (12) _____ it difficult to (13) _____ from home during the pandemic due to a lack of suitable workspace or distractions.

While young people (14) _____ (15) _____ long - term with remote (16) _____, perhaps more of a hybrid model where they (17) _____ (18) _____ from home part of the time and (19) _____ onsite other times, (20) _____ (21) _____ well for them.

But it (22) _____ not (23) _____ that they (24) _____ a formal hybrid structure with specific days of the week (25) _____ for (26) _____ remotely but instead a fluid option that (27) _____ them, if possible, (28) _____ on the job role, to (29) _____ their day - to - day work location.

30번

In humans, the infant immune system (1) _____ less active than that of adults, (2) _____ a wide range of bacteria to (3) _____ in our guts.

Similarly, young plants (4) _____ fewer defensive compounds into the soil than older ones, (5) _____ a broad variety of microbes to (6) _____ their rhizospheres.

Human breast milk (7) _____ sugars.

At first, scientists (8) _____ to (9) _____ why mothers (10) _____ these compounds, as babies (11) _____ n't (12) _____ them.

It now (13) _____ that their sole purpose (14) _____ to (15) _____ the bacteria with which the child (16) _____ (17) _____.

They selectively (18) _____ a particular bacterial species with a crucial role in (19) _____ the gut to (20) _____ and fine - (21) _____ the immune system.

Similarly, young plants (22) _____ large quantities of sugars into the soil, to (23) _____ and (24) _____ their new microbiomes.

Like the human gut, the rhizosphere not only digests food, but also (25) _____ to (26) _____ plants from disease.

Just as the bacteria that (27) _____ in our guts outcompete and attack (28) _____ pathogens, the microbes in the rhizosphere (29) _____ a defensive ring around the root.

Plants (30) _____ beneficial bacteria species, so that they (31) _____ pathogenic microbes.

31번

Orb - weaving spiders often (1) _____ distinct vibrational signals to (2) _____ their webs.

When a rival approaches, the resident spider (3) _____ rapidly (4) _____ its web, (5) _____ out a series of intense vibrations.

These vibrations (6) _____ (7) _____ (8) _____ as a challenge, (9) _____ the resident spider's readiness to (10) _____.

The intensity and complexity of these signals often (11) _____ with the size and strength of the spider, (12) _____ the invader to (13) _____ the risk of (14) _____ in a direct confrontation.

The beauty of vibrational (15) _____ lies in its efficiency.

It (16) _____ costly physical clashes, (17) _____ spiders to (18) _____ territorial disputes with minimal risk of injury.

A smaller or weaker spider, upon (19) _____ a strong vibrational warning, (20) _____ (21) _____ to (22) _____ and (23) _____ a less contested territory, rather than (24) _____ a potentially fatal fight.

This (25) _____ vibrational communication a crucial tool for (26) _____ stability and (27) _____ aggression within spider populations.

32번

(1) _____ to British economist Lionel Robbins, whether goods and services (2) _____ beneficial to human welfare or not, economics (3) _____ (4) _____ them if they (5) _____ the wants of some men.

It (6) _____ also worth (7) _____ that in view of Robbins, economics (8) _____ not (9) _____ with the question as to what (10) _____ (11) _____ (12) _____ (13) _____, that (14) _____, what (15) _____ (16) _____ (17) _____ satisfied and what not, because in this regard man himself (18) _____ to (19) _____.

Economics itself (20) _____ not (21) _____ a choice.

Economist only (22) _____ in what ways the (23) _____ ends or (24) _____ (25) _____ (26) _____ (27) _____ with the minimum possible resources.

What (28) _____ or (29) _____ (30) _____ (31) _____ (32) _____ for satisfaction (33) _____ not the concern of economists.

Whether the ends (34) _____ by man (35) _____ good or bad, noble or ignoble, economics (36) _____ (37) _____ them, because the task of economist (38) _____ not to (39) _____ or (40) _____ but only to analyse and (41) _____.

To (42) _____ about the desirability or otherwise of a thing (43) _____ beyond the scope of economics.

Therefore, (44) _____ to Robbins, economics (45) _____ neutral between ends.

33번

In some parts of India there (1) _____ temples to Sitala, who (2) _____ a goddess of skin diseases.

Historically, people in these regions (3) _____ offerings to Sitala in order to (4) _____ themselves against smallpox.

During the colonial period in India, the British (5) _____ the smallpox vaccine, which ultimately (6) _____ to the elimination of smallpox.

This in turn (7) _____ to a significant decline in the worship of Sitala as people no longer (8) _____ her assistance to (9) _____ smallpox.

(10) _____ it right for the British to (11) _____ the smallpox vaccine (12) _____ that it (13) _____ the cultural practice of (14) _____ offerings to Sitala?

Or (15) _____ this cultural imperialism?

(16) _____ the British simply (17) _____ (18) _____ and (19) _____ (20) _____, or (21) _____ and (22) _____ (23) _____ as the case (24) _____ (25) _____?

That (26) _____ (27) _____ harsh, but there (28) _____ some scholars who (29) _____ for that.

What (30) _____ beyond dispute (31) _____ that no matter how you (32) _____ that question, you (33) _____

_____ (34) _____ a value judgment.

In this example, (35) _____ to (36) _____ and (37) _____ (38) _____ (39) _____ n't value - neutral ; it (40) _____ a choice that (41) _____ cultural autonomy over the lives of those who (42) _____ otherwise (43) _____ (44) _____.

34번

What (1) _____ the relations between social determinations and subjective aesthetic experience?

If every author (2) _____ out with his / her own set of values and personal history, how (3) _____ this subjective vision of the world (4) _____ by the society in which the author (5) _____?

The inner world of the writer necessarily (6) _____ the social world outside of him or her.

Pierre Bourdieu, in La distinction, (7) _____ to (8) _____ this question from a materialistic point of view, (9) _____ that the analysis of this kind of relation between the inner and the social world (10) _____ (11) _____ back to the earliest stage of a child's life when s / he (12) _____ pleasure and aversion.

But children (13) _____ already part of a social group thanks to their family, and therefore the pleasure and the aversion they (14) _____ (15) _____ class - specific, (16) _____ to the volume of capital they (17) _____ (18) _____, so that the 'purest' pleasures, Bourdieu (19) _____, (20) _____ (21) _____ in these socially (22) _____ experiences.

In other words, for Bourdieu, from the beginning of life, every experience (23) _____ already (24) _____ by the world outside, and this influence (25) _____ itself in literary works too.

35번

Pre - Consumer Waste (1) _____ " waste " that (2) _____ (3) _____ by the industrial processes (4) _____ to (5) _____ the products or packaging that we (6) _____ as consumers.

This (7) _____ (8) _____ " waste " and (9) _____ typically very clean, of consistent quality and (10) _____ only a single material.

Examples (11) _____ : offcuts from (12) _____ aluminium cans ; cardboard boxes or clothing ; trimmings from (13) _____ vegetables ; or wood or textile offcuts from (14) _____ furniture.

Such " waste " (15) _____ in the past often (16) _____ for disposal, but increasingly producers (17) _____ (18) _____ their internal " waste " to (19) _____ money by (20) _____ unwanted trimmings or offcuts back into useable raw materials.

To (21) _____ such materials for disposal (22) _____ not only poor financial practice by the producer, from an environmental perspective it (23) _____ criminal.

These (24) _____ good - quality, clean and easily collectable materials that just (25) _____ to (26) _____ in the wrong form ; so (27) _____ or (28) _____ them!

36번

The autonomy (1) _____ to the individual in terms of free speech (2) _____ (3) _____ both individual ((4) _____ purely from the speaker's point of view) and relational in nature.

The individual's speech (5) _____ (6) _____ (7) _____ in order to (8) _____ them to freely (9) _____ their personality.

This (10) _____ important, even (11) _____ in mind that this development (12) _____ only possible in social life, which (13) _____ in relation to and possibly in cooperation with others.

Relational autonomy, however, also (14) _____ the interests of the audience of the speech into account.

Speech (15) _____ also (16) _____ the autonomy of others, for example in the case of defamation, invasion of

privacy, or (17) _____ speech that (18) _____ certain community.

European legal systems also (19) _____ the latter aspect into account when (20) _____ the limits of freedom of expression.

They (21) _____ freedom of expression in the interests of the autonomy of those (22) _____ by the speech, in order to (23) _____ the peace and security of social coexistence.

37번

The belief that vision (1) _____ important to (2) _____ safely (3) _____ the reason why measurements of visual capability (4) _____ an integral part of the test for (5) _____ a (6) _____ licence in most countries.

Despite these requirements, (7) _____ to (8) _____ a link between simple visual functions such as visual sharpness and the accident record of drivers (9) _____ (10) _____ largely fruitless.

This (11) _____ (12) _____ because drivers with worse visual capabilities (13) _____ aware of their abilities and (14) _____ within them.

Alternatively, it (15) _____ (16) _____ that the visual capabilities (17) _____ (18) _____ too simple.

The fact (19) _____ the drivers' task (20) _____ a complex one, (21) _____ both visual and cognitive factors.

Within a very limited time, the driver (22) _____ to (23) _____ what (24) _____ likely to (25) _____ on the road ahead.

To (26) _____ this, the driver (27) _____ (28) _____ a series of expectations of other drivers' behaviour and of what (29) _____ the appropriate locations to (30) _____.

The driver (31) _____ (32) _____ (33) _____ with objects of different degrees of visibility and noticeability and (34) _____ (35) _____ to (36) _____ judgements for which the visual system (37) _____ not always well (38) _____.

38번

Mathematics (1) _____ (2) _____ (3) _____ a universal language, but most of it (4) _____ explicitly (5) _____.

However, it (6) _____ (7) _____ that some aspects of mathematical knowledge (8) _____ (9) _____ innate and present from birth : for example, the ability to (10) _____ between different quantities (i.e. large versus small), while understanding of the relationships and associations between numbers (11) _____ predominantly (12) _____.

Although mathematics (13) _____ (14) _____ (15) _____ a universal language, there (16) _____ distinct language and cultural differences in how counting systems (17) _____ (18) _____.

For example, in English, words like 'eleven' and 'twelve' (19) _____ not directly (20) _____ the values that they (21) _____ for, 10 + 1 and 10 + 2.

However, in Chinese, the number system (22) _____ very logical, with words that directly (23) _____ the values that (24) _____ (25) _____.

For example, the number 20 in Chinese, ershi, literally (26) _____ as 'two - ten'.

But it (27) _____ not only the linguistic representation of numbers that (28) _____ ; the counting systems (29) _____ also (30) _____.

Although the decimal system (31) _____ today, other counting systems (32) _____ (33) _____ (34) _____ over time, for example, the Mayan numeral system (35) _____ a base 20 system.

39번

When we (1) _____, we (2) _____ to (3) _____ the synapses (4) _____ information on how to (5) _____ something correctly, while (6) _____ those that (7) _____ erroneous messages. To (8) _____ how this (9) _____, (10) _____ of a leaky hose that (11) _____ many holes in it. Some of the water (12) _____ (13) _____ through the hose and out the nozzle, but a lot of it (14) _____ (15) _____ out the holes. This (16) _____ what your brain (17) _____ like when you first (18) _____ to (19) _____ something : the water (20) _____ out the holes (21) _____ all the erroneous information your brain (22) _____ (23) _____ to your fingers, lips, etc. Once you (24) _____ the holes in the hose, all the water (25) _____ then out the nozzle ; in your brain, this (26) _____ analogous to the synapses (27) _____ the correct messages (28) _____ much stronger than those (29) _____ incorrect messages. The brain (30) _____ this through (31) _____ the structure of the synapse to (32) _____ it easier for the correct neurons to (33) _____. A common phrase in neuroscience (34) _____ " neurons that (35) _____ together wire together, " (36) _____ neurons that (37) _____ with each other often (38) _____ their structure to (39) _____ that communication easier.

40번

New York University's Leif D. Nelson and Tom Meyvis (1) _____ a surprising phenomenon in a 2008 study. The researchers (2) _____ participants who (3) _____ (4) _____ they (5) _____ (6) _____ (7) _____ a massage cushion. Participants (8) _____ (9) _____ into two groups. The first group (10) _____ the device for three minutes (180 seconds) without a break. The second group (11) _____ the massage cushion for two periods of 80 seconds, with a 20 - second break between sessions. Afterwards, participants (12) _____ (13) _____ to (14) _____ their enjoyment of the massage on a nine - point scale (one = not pleasant ; nine = extremely pleasant). Those who (15) _____ a three - minute massage (16) _____ an average rating of 6.05 out of 9. However, those (17) _____ to (18) _____ a 20 - second break during their massage (19) _____ a rating of 7.05 — that (20) _____ a 17 % improvement in satisfaction. At first glance, that (21) _____ counter – intuitive. The group who (22) _____ the shorter massage (23) _____ it more. But the theory (24) _____ that the break in pleasure (25) _____ us from (26) _____ too familiar with the positive experience and thus (27) _____ it less — a process (28) _____ habituation.

Flashback to 50,000 years ago on the Serengeti, and you (1) _____ (2) _____ an antelope back to the village. (3) _____ us just (4) _____ it (5) _____ (6) _____ you, metabolically (7) _____, 2,000 calories to (8) _____, (9) _____ and (10) _____ down the antelope. When you (11) _____ back to the village, you (12) _____ clearly (13) _____ to (14) _____ at least 2,000 calories to (15) _____ your expenditure. But there (16) _____ no guarantee that you (17) _____ successfully (18) _____ an antelope the next time out, so if you ONLY (19) _____ to your metabolic need, you (20) _____ n't (21) _____ very long. That (22) _____ when the hedonic part of the brain, which (23) _____ the feeling of reward kicks in, (24) _____ you to (25) _____ more.

But how (26) _____ you (27) _____ past the mechanical difficulty of a stomach (28) _____ full with 2,000 calories of meat?

Your brain (29) _____ more picky, it (30) _____ to (31) _____ foods that (32) _____ more calorically dense and more calorically available, which (33) _____ (34) _____ to (35) _____ foods high in free sugars and fat.

What foods (36) _____ high in free sugars and fat? Desserts.

Your dessert stomach (37) _____ an evolutionary leftover from your days in the Serengeti, to (38) _____ sure that even when full, you (39) _____ still (40) _____ the right types of foods to (41) _____ you (42) _____ able to (43) _____ your caloric intake at every meal, because there (44) _____ never a guarantee of when the next meal (45) _____ (46) _____.

It (47) _____ us alive in regular feast - famine cycles, but (48) _____ (49) _____ toxic for many of us in the feast - feast environment of today.

43~45번

Matthew (1) _____ tennis. He (2) _____ (3) _____ (4) _____ hard for weeks, (5) _____ for the biggest match of the year.

Today (6) _____ the day. He (7) _____ to (8) _____. He (9) _____ (10) _____ so much.

His best friend and training partner Larry (11) _____ on the sidelines, (12) _____ him on.

The match (13) _____ off great.

He (14) _____ across the court, (15) _____ each ball with speed and precision.

But then, SNAP! His racket strings (16) _____!

Matthew (17) _____ and his heart (18) _____ as he (19) _____ at the loose strings (20) _____ from his racket.

He (21) _____ never (22) _____ a string break during a match before, and now it (23) _____ (24) _____ in his most important match.

The referee (25) _____ for a short break while Matthew (26) _____ out what to (27) _____.

He (28) _____ about to (29) _____ up when he (30) _____ a voice.

" (31) _____ my spare! " He (32) _____ to (33) _____ Larry (34) _____ out his extra racket.

Matthew (35) _____. It (36) _____ n't his racket. It (37) _____ n't (38) _____ the same.

But then he (39) _____ something his coach always (40) _____, " Champions never (41) _____ up. "

(42) _____ a deep breath, he (43) _____ Larry's racket and (44) _____ to the court.

The new racket (45) _____ heavier than his own, and the grip (46) _____ n't as comfortable.

He (47) _____ an easy ball, and his opponent (48) _____ a point.

But instead of (49) _____ (50) _____, Matthew (51) _____ himself, ' It (52) _____ okay. I just (53) _____ to (54) _____.'

He (55) _____ on his footwork and (56) _____ his grip.

Despite his best efforts, things (57) _____ n't (58) _____ as Matthew (59) _____.

And by the end of the match, he (60) _____ (61) _____.

He (62) _____ (63) _____ to (64) _____ so badly.

As Matthew (65) _____ miserably to the net, he (66) _____ at his opponent.

The boy (67) _____ (68) _____, (69) _____ out his hand.

He (70) _____ n't (71) _____ to (72) _____ his defeat.

But then, he (73) _____ something Larry always (74) _____ :

" (75) _____ (76) _____ n't about the score. It (77) _____ about how you (78) _____ the game. "

Matthew (79) _____ he (80) _____ (81) _____ his best.

Matthew (82) _____, (83) _____ the boy's hand and (84) _____, " Congratulations. You (85) _____ a

great game. "
